The planet, Naboo, has no standing army. However, to meet its security needs, a small security force was established. The Naboo security force blaster is standard issue for this planetary security force.

Battle droids are the foot soldiers of the Trade Federation army. The battle droid blaster is the standard issue weapon for these formidable soldiers.

The Naboo Assault Set includes two Blasters: Naboo security force blaster and battle droid blaster.

## BATTERY INSTALLATION

- Only batteries of the same or equivalent type as recommended are to be used
- Batteries are to be inserted with the correct polarity
- Exhausted batteries are to be removed from the toy
- The supply terminals are not to be short circuited
- Replace with new batteries at the first sign of erratic operation

## NABOO ASSAULT SET BLASTER FEATURES

### Naboo Security Force Blaster

Battle Droid Blaster

The Naboo Assault Set has been designed with performance and features to ensure exciting action-packed games.

**LED Sight:** The sight gives you pinpoint accuracy. Line up the red dot in the sight with your opponent's target and fire.

**Forcefield™ Button:** Activating the Forcefield will momentarily protect the blaster from being tagged by the enemy. A Forcefield sound effect will be heard while it is on. The Forcefield can be used three times per game.

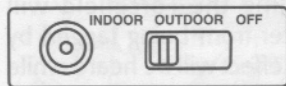

**Super Strike™ Button:** One Super Strike has the power of 10 tags. Score a direct hit on an opponent with the Super Strike and that player is out of the game. The Super Strike can be used only once per game (10 tags) so use it wisely.

**Indoor/Outdoor/Off Switch:** This switch toggles between Indoor mode, Outdoor mode and turning off the blaster. The Indoor and Outdoor settings allow you to customize the performance of Lazer Tag for Indoor and Outdoor play. Turn OFF the blaster when you are finished playing to conserve battery life.

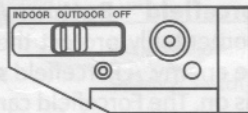

**Mute Button:** This button toggles between the warning beeps to be turned on or turned off.

## HOW TO OPERATE

1. To turn ON the blaster, slide the Indoor/Outdoor/Off switch to either the Indoor mode or the Outdoor mode position. Use the Indoor mode when you are playing inside. Use the Outdoor mode when you are playing outside.

2. The blaster trigger is located in the handle of the blaster.
3. To emit a single infra-red burst, press and release the blaster trigger once.
4. To emit a rapid, continuous burst, press and hold the blaster trigger.
5. To activate the Super Strike™ feature, press the Super Strike button. Remember, there is only one Super Strike per game.
6. To activate the Forcefield™ feature, press the Forcefield button. Remember, there are only 3 Forcefields per game.

7. For added stealth and secrecy, press the **MUTE** button to silence the warning beeps. Press the MUTE button again to turn on the warning beeps.
8. The Voice Warning System will announce when there is one tag remaining.

## GAME RULES FOR TWO PLAYERS and TEAM PLAY

The object of the game is to tag out your opponents before they tag you out. The last person not tagged out is the winner!

1. All players must turn their Lazer Tag unit on to begin the game. Players should not turn their unit off and back on during the game.
2. Players cannot shield the red dome of the laser sensor with their hand, clothing or any other object.
3. When a player has received 10 tags, the player is out of the game and cannot continue with the game.
4. Each time the red dome detects a tag, the dome will flash and there will be 1 less available tag.

**NOTE:** Once a player has been tagged 10 times, the blaster will not function until it is turned off and then on again. If the player does not turn off the blaster, it will beep periodically until it is turned off.

## **GAME FOR TWO PLAYERS**

The most simple version of Lazer Tag is to try to tag your opponent 10 times before he tags you. Using the sight, aim at the red dome on your opponent's blaster. If the aim is good and the infra-red burst connects with the red dome on your opponent's blaster, you will score a tag!

## **GAMES FOR TEAM PLAY**

Lazer Tag is really fun for teams! The possibilities for team play are endless. You are limited only by your imagination!

**Free for All:** The object of the game is to "tag out" all the players on the opposite team before they tag all the players on your team. There are no physical boundaries to the game and no time limit.

**The Box:** Similar to the Free for All game described above,

but the difference is the game is played within boundaries that are set up by both teams. Perhaps the playing field is the backyard. It's a fast-paced game and there is nowhere to hide!

**Time Out:** The object of this game is to score as many points as possible during a set amount of time. Each tag that an opponent receives counts for one point. The blaster will only count up to 10 points, so that is the most points each player can score. Play for 15 minutes and see how many points your team can score!
